Subject: Temporary Change of Catering Service Provider at Regional Office Complex

Issued by: Facilities and Operations Division – Ministry of Transport

This is to inform all staff at the Frankfurt Regional Office Complex and its associated enforcement units that, due to the expiration of our current service contract, the on-site cafeteria will transition to a new temporary catering vendor effective **October 10th**.

During the transition week (October 10–17), food service availability may be limited and menu selection will vary. The new provider, EssenMobil GmbH, has committed to maintaining core service hours (07:30–15:00) and will provide options for special dietary needs upon request.

Please be aware that the temporary provider will not support the prior electronic staff payment card system. All transactions must be paid in cash until the new payment terminals are installed.

Staff are advised to plan accordingly and are welcome to bring external food until operations normalize.

This change will not affect operations, enforcement schedules, or public service hours. Any questions regarding service continuity should be directed to the Facilities Helpdesk at ext. 2519.

We thank you for your understanding during this minor transition.
