

Internal Operations Brief
International Declarations Unit
Date: 01.08.2017

Subject: Procedural Stability Notice – Fall/Winter 2017

All cross-border declarations are to follow the standard intake and verification routing defined in Directive INT/7/2016. Escalation protocols for flagged declarations remain centralized through the Senior Compliance Coordinator.

Units are advised to adhere strictly to regional batching timelines and defer discretionary coordination with Customs Authority branches until further notice.

No staffing or procedural changes are scheduled for Q3 or Q4. Weekly compliance audits are suspended until January due to resource constraints.
