

Information Security Office

Date: 04.03.2013

Subject: Mandatory Security Patch Deployment – Permit Case Platform

Between March 5 and March 7, all ProcessOffice installations will be patched to version 5.8.1.

This patch includes:

- Improved login timeout handling
- Security hardening for document upload endpoints
- Updates to the internal audit log viewer

All users are advised to **log off by 17:00** on March 6. The update window is scheduled overnight.

The patch has **no effect on workflow rules, task distribution, or policy logic**. It is a technical update only.
